Plight of
Wild Horses
Written by
Denise
Brown

Wind, Wild Horse Rescue is an adventure about the plight of America's wild mustangs and the fight to prevent them from being eliminated on public lands. **Wind** focuses on the handling and management of the wild herds. The book also takes on the inhumanity of the slaughterhouse and the debate over what to do with wild horses. It also reveals many of the challenges faced by wild horses through the eyes, ears, and senses of a young colt named "Wind". Wind is chased by a helicopter and captured during a round-up. The names here are fictitious, the events are real.
